

Shaped Copper Contact Wire MF (GOST 2584-86)

Технические характеристики

Consistency: oxygen-free copper not less than M1b (GOST 859-2001);

Electric resistivity of wire - not more than 0,01770 Ohm•mm²/m;

Размеры

Nominal cross-section area of wire

- - 85-120 mm²

Drum length (m)

- - MF-85 - 1400-2000
- - MF-100 - 1400-1900
- - MF-120 - 1400-1800

Срок изготовления

30 days

Упаковка

Reel № 14b (GOST 5151-79)

Reel sizes:

Outer diameter (height): 1400-1500 mm;

Inner diameter: 1000 mm;

Width: 900 mm;

Область применения

Shaped copper contact wire is used for aerial contact system of electric transport.
